DIPLOMA IN LOGISTICS AND SUPPLY CHAIN MANAGEMENT

SAQA ID: 85028
NQF Level 6

Introduction

The ILSCM Diploma in Logistics and Supply Chain Management assists learners in gaining an understanding of what supply chain management is and how it contributes to creating a sustainable competitive advantage for organisations.

This Diploma will be of great interest to all professionals who work in the areas of operations management, logistics, procurement and information technology, and to all learners who are interested in developing a career in the area of supply chain management.

Purpose

This practical course will prepare you for an existing career in Logistics & Supply Chain Management. Improve your prospects of career advancement by using this programme as a foundation for further studies in this fast growing field. This qualification is offered on a NQF level 6 and by means of work integrated learning students gain practical experience in their chosen field of expertise.

This programme will equip you to critically analyse, interpret and understand logistics and supply chain principles, processes and procedures.

You will learn how modern supply chain ecosystems comprise of a network of companies, countries and their governments, social and political organisations, financial and human resources, delivery infrastructure including logistics and IT, and knowledge of the industrial environment.

This programme explains what supply chain design is and provides insights on how to design supply chains to give them competitive advantages over competing supply chains.

Benefits of the ILSCM

• Flexible - Whether you prefer to study online, during the day or at night, earning a degree can fit into your busy life. Our faculty and advisors will work closely with you to help manage your real life challenges.
• Accredited - The ILSCM is accredited by the Council on Higher Education. Accreditation provides assurance that we are committed to standards of excellence, core values, and to working for the common good of society.
• Affordable - The variety of payment options are available for self- or corporate funded programmes. Fees are all inclusive of course material and textbooks meaning no additional funding is required.
• Accelerated - Transferring your existing credits and selecting the program that's right for you eliminates unnecessary classes and helps ensure you can earn your degree as quickly as possible.
• Career Focused - Our degrees are designed to help you learn and apply real world professional knowledge, and master the essential skills employers seek.
• Online - Online learning at the ILSCM is designed to be engaging, to help you become a confident professional through extensive faculty and peer-to-peer interaction.
• Supportive - Our dedicated team of faculty and staff will help you get on the path that's right for you and stay with you every step of the way as you earn your degree and achieve your goals.
